

HAWAII PALMS KIDS PROGRAM STUDENT AGREEMENT

By registering for the Kids program and signing below, I agree to abide by the following rules and guidelines:

- I understand that the main focus of the program is on oral communication, which requires my child to be an **active participant**. In situations where he or she doesn't understand the teacher's instructions or questions, I will encourage them to do their best to get clarification from the teacher.
- On their first day, my child will be given a list of useful English phrases that they're expected to use throughout the program.
- I understand that the Kids Program is an English immersion program that focuses on situational English for beginner – intermediate level students. Students of all levels are welcome to join, but I understand that the focus will be on lower-level students.
- I understand that in order for this program to be successful, students need to make an effort to communicate in English at all times, even during lunch time and breaks. I know this will be difficult to do, but I will encourage my child to do their absolute best.
- I understand that students are not allowed to bring cell phones with them, even if they want to use them just to take pictures (the school takes and uploads pictures daily on www.Facebook.com/palmskidsandteens, so you can always view them later).
- I understand that in order to avoid potential allergic reactions, Hawaii Palms does not allow students to share snacks.
- I am enrolling my child in this program because I want them to explore and learn about Hawaii, while practicing and improving their English. I understand that learning a language takes time and a lot of effort from their part.
